IT PERFORMANCE MANAGEMENT
through algorithmic intelligence

THE IMPORTANCE OF CHOOSING THE RIGHT METRICS

Selecting the correct metrics by which to manage functional and organizational behaviour is a very complex and difficult process. Most organizations struggle with too many metrics, hence their performance management processes and effectiveness of their performance management process is not providing business value.

WHO IS indiK™ FOR ?

Built for organizations looking to transform their IT performance management processes to include factual data. Executives looking to increase the level of organizational performance, as well as those looking for continuous improvement opportunities should consider indiK™.

WHAT MAKES indiK™ DIFFERENT ?

Our team of experts bring 25 years' worth of acquired knowledge in IT performance management using sophisticated algorithmic technology. This helps you set up the best business insight tools, tailored to your needs and objectives.

WHAT WE STAND FOR

We are focused on helping IT executives improve their performance management processes and decision-making abilities. indiK™ brings expertise and a sophisticated tool set that uses Algorithmic Knowledge Objects that are based upon best practices, industry standards and acquired knowledge.

Dashboard sample

All of your business operations at a glance, tailored to your role's needs.

HOW DOES IT WORK ?
